SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Activity

NOTE 1

Upper Missouri G&T Electric Cooperative, Inc. d/b/a Upper Missouri Power Cooperative (the Cooperative) is incorporated under the laws of the State of Montana. Members, each of whom has one vote, are admitted by agreeing to comply with the provision of the by-laws. Membership is limited to distribution cooperatives which purchase rural electric power supplied by Upper Missouri G&T Electric Cooperative, Inc.

The Cooperative purchases wholesale power from Basin Electric Power Cooperative and the United States Department of Energy Western Area Power Administration and delivers energy over its own and other utilities' transmission facilities to its members.

Method of Accounting

As a result of the ratemaking process, the Cooperative applies Accounting Standards Codification (ASC) 980, Regulated Operations. The application of generally accepted accounting principles by the Cooperative differs in certain respects from the application by non-regulated businesses as a result of applying ASC 980. Such differences generally relate to the time at which certain items enter into the determination of net margins in order to follow the principle of matching costs and revenues.

Revenue Recognition

Substantially all of the Cooperative's revenues from contracts with customers are recognized from electric power sales to members who are located within the Cooperative's defined service territory, through the membership agreement and cooperative bylaws. All of the electric revenues meet the criteria to be classified as revenue from contracts with customers and are recognized over time as energy is delivered. Revenue is recognized based on the metered quantity of electricity delivered at the applicable board approved rates. The Cooperative's billing period to their customers is month end.

Power Costs

The Cooperative's power suppliers billing period for power sold to the Cooperative is month end.

Electric Plant and Retirements

Electric plant in service and under construction is stated at cost, including estimated overhead expense. The cost of additions to electric plant includes contracted work and allocable overheads. When units of property that are specifically identifiable are retired, sold or otherwise disposed of in the ordinary course of business, their book cost less net salvage is recognized as a gain or loss. Costs of plant retired are eliminated from utility plant accounts and such costs plus removal expenses, less salvage, are charged to accumulated provision for depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense.

NOTES TO FINANCIAL STATEMENTS (Continued)						

Rates charged to customers are established by the board of directors.

Depreciation

Depreciation is computed using the straight-line method based upon the estimated useful lives of the various classes of property.

Investments

Investments are patronage allocation from cooperatives and other affiliates stated at cost plus undistributed allocated equities. The fair value of cost-method investments is not estimated as there are no identified events or changes in circumstances that may have a significant adverse effect on the fair value.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Cooperative considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts. The allowance for doubtful accounts is estimated based on the Cooperative's historical losses, the existing economic conditions in the industry, and the financial stability of its customers. The Cooperative believes no allowance for doubtful accounts is necessary at September 30, 2020. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recognized as revenue when received.

An account receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 30 days. The Cooperative does not charge interest on late payment.

Patronage Capital

The Cooperative operates on a nonprofit basis. Amounts received from the furnishing of electric energy in excess of operating costs and expenses are assigned to member patrons on a patronage basis. All other amounts received by the Cooperative from its operations in excess of costs and expenses, to the extent they are not needed to offset current or prior losses, are also allocated to its member patrons on a patronage basis. These allocations are retained by the Cooperative until a general retirement is authorized by the Board of Directors.

Materials and Supplies

The inventory of plant materials and operating supplies used in the repair and replacement of plant is stated at the lower of average cost or net realizable value.

Deferred Credits

Deferred credits consist of prepayment for an asset purchase and transformer maintenance that is amortized over a five-year period.

Pension Plan

The policy of the Cooperative is to fund pension costs accrued.

Income Taxes

The Cooperative is exempt from income taxes under Section 501(c)(12) of the Internal Revenue Code. The Cooperative's policy is to evaluate the likelihood that its uncertain tax positions will prevail upon examination based on the extent to which those positions have substantial support within the Internal Revenue Code and Regulations, Revenue Rulings, court decisions, and other evidence.

Sales and Similar Taxes

The Cooperative has customers in municipalities in which those governmental units impose a sales tax on certain sales. The Cooperative collects those sales taxes from its customers and remits the entire amount to the various governmental units. The Cooperative's accounting policy is to exclude the sales tax collected and remitted from revenue and cost of sales.

Advertising Costs

The Cooperative expenses all advertising costs as they are incurred.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 4 ECONOMIC DEVELOPMENT INVESTMENTS

During 2003, the Cooperative entered into an agreement with Basin Electric Power Cooperative, Inc., to participate in Basin's economic development loan program. Under the terms of this program, the Cooperative can borrow funds from Basin Electric which are then loaned by the Cooperative to its member distribution cooperatives for approved economic development projects. Interest on these loans is charged at 1% with interest payments due June 1st and December 1st of each year. No principal payments are due until the loans mature on December 31, 2027. The three-member cooperatives that have participated in this program are as follows:

The mortgage provisions restrict the retirement of patronage capital unless, after retirement, the capital of the Cooperative equals at least 30 percent of the total assets of the Cooperative; provided, however, that retirements can be made if such distributions do not exceed 25 percent of the preceding years' margins. No distributions can be made if there is unpaid, when due, installments of principal or interest on the notes, or, if after giving effect to any distributions, the total current and accrued assets would be less than the total current and accrued liabilities. During 2020, the Cooperative's capital exceeded 30 percent of total assets.

Accounts Receivable

The Cooperative had accounts receivable from contracts with customers of:

September 30, 2020

Accounts Receivable \$ 48,938,256

NOTE 10 EMPLOYEE BENEFIT PLANS

401(k) Plan

Employees of the Cooperative are eligible for a 401(k) savings plan. This plan is offered through the National Rural Electric Cooperative Association (NRECA). The Cooperative's matching contribution percentage is 3% of each employee's base wage in this plan. The Cooperative contributions were \$4,378 in the 3rd quarter of 2020.

Pension Plan

The Retirement Security Plan (RS Plan), sponsored by the NRECA is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333.

A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

The Cooperative's contributions to the RS Plan in 2020 represented less than five percent of the total contributions made to the plan

by all participating employers. The Association made contributions to the plan of \$22,936 during the third quarter of 2020.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the Retirement Security Plan was over 80 percent funded at March 31, 2020, based on the PPA funding target and PPA actuarial value of assets on those dates.

Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

NOTE 11 RELATED PARTY TRANSACTIONS

The Cooperative is a member of and purchases a portion of its wholesale power from Basin Electric Power Cooperative. The following is a summary of the transactions with this entity for the quarter:

	Sept	ember 30, 2020
Purchase of wholesale power for current quarter	\$	140,991,555
Accounts payable to Basin Electric at end of period	\$	47,883,442
Accumulated investment in patronage capital credits	\$	242,145,682

NOTE 12 COMMITMENTS

The Cooperative has a wholesale power contract with Basin Electric Power Cooperative of Bismarck, North Dakota, whereby the Cooperative purchases firm power and associated energy until December 31, 2075. The rates paid are subject to review annually. In addition, the Cooperative has an allocation of United States Department of Energy Western Area Power Administration (WAPA) power under contract at standard WAPA wholesale rates. This contract extends thru December 31, 2050.

NOTE 13 BUSINESS AND CREDIT RISK

The Cooperative provides electrical transmission service on account to its member cooperatives which are located in eastern Montana and western North Dakota.

Concentrations of credit risk exist with respect to revenue from power sales from two member cooperatives comprising approximately 81.9% as of September 30, 2020.

The Cooperative maintains its cash balances in a locally owned bank. Such balances are insured by the Federal Deposit Insurance

Corporation up to the maximum limit. The cash balances exceeded insurance coverage at various times during the years, however is fully backed by pledged securities of the bank through a repurchase agreement.

NOTE 14 ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

It is the opinion of management that the Cooperative has no significant uncertain tax positions that would be subject to change upon examination. The federal income tax returns of the Cooperative are subject to examination by the IRS, generally for three years after they were filed. All filings are current.

NOTE 15 LITIGATION

The Cooperative has been named as a defendant in a lawsuit by one of its members against the Cooperative's main power supplier. The member claims the main power supplier power rates have been increased due to the supplier's unreasonable and imprudent operation of one of its subsidiaries. These increased rates were then passed on by the Cooperative to its members. The member has also filed a complaint with federal regulators concerning the Cooperative's increased rates. Amount of any potential loss cannot be reasonably estimated at this time.

NOTE 16 FUTURE PRONOUNCEMENTS

ASU 2016-02, Leases (Topic 842)

During 2016, the FASB issued guidance to change the accounting for leases. The main provision of the ASU 2016-02 is that lessees will be required to recognize lease assets and lease liabilities for most long-term leases, including those classified as operating leases under GAAP. The ASU is effective for the Cooperative for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021.

Management has not yet determined what effect this pronouncement will have on the Cooperative's financial statements.

With the exception of the new standard discussed above, management has not identified any other new accounting pronouncements that have potential significance to the Cooperative's Financial Statements.

1. The respondent shall report below the details called for concerning amounts it recorded in Account 555, Purchase Power, and Account 447, Sales for Resale, for items shown on ISO/RTO Settlement Statements. Transactions should be separately netted for each ISO/RTO administered energy market for purposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining whether a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and separately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.
