C	ORPORATIONS CONTROLLED BY RE	SPONDENT	•

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.

2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.

3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.

Definitions

1. See the Uniform System of Accounts for a definition of control.

2. Direct control is that which is exercised without interposition of an intermediary.

3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.

4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Upper Missouri G & T Electric Cooperative, Inc. dba	 (1) An Original (2) A Resubmission 	(Mo, Da, Yr) 12/31/2020	End of2020/Q4	
9 Use page 122 for important notes regarding the state	ment of income for any account thereof	f		

10. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in material refund to the utility with respect to power or gas purchases. State for each year effected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power or gas purchases.

11 Give concise explanations concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purches, and a summary of the adjustments made to balance sheet, income, and expense accounts.

12. If any notes appearing in the report to stokholders are applicable to the Statement of Income, such notes may be included at page 122.

13. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also, give the appropriate dollar effect of such changes.
 14. Explain in a footnote if the previous year's/quarter's figures are different from that reported in prior reports.

15. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles report the information in a footnote to this schedule.

NOTES	TO FINANCIAL STATEMENTS		

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Cormmission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
 Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be included herein.

7. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.

8. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.

9. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

PAGE 122 INTENTIONALLY LEFT BLANK SEE PAGE 123 FOR REQUIRED INFORMATION.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Activity

Upper Missouri G&T Electric Cooperative, Inc. d/b/a Upper Missouri Power Cooperative (the Cooperative) is incorporated under the laws of the State of Montana. Members, each of whom has one vote, are admitted by agreeing to comply with the provision of the by-laws. Membership is limited to distribution cooperatives which purchase rural electric power supplied by Upper Missouri G&T Electric Cooperative, Inc.

The Cooperative purchases wholesale power from Basin Electric Power Cooperative and the United States Department of Energy Western Area Power Administration and delivers energy over its own and other utilities' transmission facilities to its members.

Method of Accounting

As a result of the ratemaking process, the Cooperative applies Accounting Standards Codification (ASC) 980, Regulated Operations. The application of generally accepted accounting principles by the Cooperative differs in certain respects from the application by non-regulated businesses as a result of applying ASC 980. Such differences generally relate to the time at which certain items enter into the determination of net margins in order to follow the principle of matching costs and revenues.

Revenue Recognition

Substantially all of the Cooperative's revenues from contracts with customers are recognized from electric power sales to members who are located within the Cooperative's defined service territory, through the membership agreement and cooperative bylaws. All of the electric revenues meet the criteria to be classified as revenue from contracts with customers and are recognized over time as energy is delivered. Revenue is recognized based on the metered quantity of electricity delivered at the applicable board approved rates. The Cooperative's billing period to their customers is month end.

Power Costs

The Cooperative's power suppliers billing period for power sold to the Cooperative is month end.

Electric Plant and Retirements

Electric plant in service and under construction is stated at cost, including estimated overhead expense. The cost of additions to electric plant includes contracted work and allocable overheads. When units of property that are specifically identifiable are retired, sold or otherwise disposed of in the ordinary course of business, their book cost less net salvage is recognized as a gain or loss. Costs of plant retired are eliminated from utility plant accounts and such costs plus removal expenses, less salvage, are charged to accumulated provision for depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense.

Electric Rates

'	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4			
NOTES TO FINANCIAL STATEMENTS (Continued)						

Rates charged to customers are established by the board of directors.

Depreciation

Depreciation is computed using the straight-line method based upon the estimated useful lives of the various classes of property.

Investments

Investments are patronage allocation from cooperatives and other affiliates stated at cost plus undistributed allocated equities. The fair value of cost-method investments is not estimated as there are no identified events or changes in circumstances that may have a significant adverse effect on the fair value.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Cooperative considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts. The allowance for doubtful accounts is estimated based on the Cooperative's historical losses, the existing economic conditions in the industry, and the financial stability of its customers. The Cooperative believes no allowance for doubtful accounts is necessary at December 31, 2020 and 2019. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recognized as revenue when received.

An account receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 30 days. The Cooperative does not charge interest on late payment.

Patronage Capital

The Cooperative operates on a nonprofit basis. Amounts received from the furnishing of electric energy in excess of operating costs and expenses are assigned to member patrons on a patronage basis. All other amounts received by the Cooperative from its operations in excess of costs and expenses, to the extent they are not needed to offset current or prior losses, are also allocated to its member patrons on a patronage basis. These allocations are retained by the Cooperative until a general retirement is authorized by the Board of Directors.

Materials and Supplies

The inventory of plant materials and operating supplies used in the repair and replacement of plant is stated at the lower of average cost or net realizable value.

Deferred Credits

Name of Respondent Upper Missouri G & T Electric Cooperative, Inc. dba Upper	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4		
Missouri Poe					
NOTES TO FINANCIAL STATEMENTS (Continued)					

Deferred credits consist of prepayment for an asset purchase and transformer maintenance that is amortized over a five-year period.

Pension Plan

The policy of the Cooperative is to fund pension costs accrued.

Income Taxes

The Cooperative is exempt from income taxes under Section 501(c)(12) of the Internal Revenue Code. The Cooperative's policy is to evaluate the likelihood that its uncertain tax positions will prevail upon examination based on the extent to which those positions have substantial support within the Internal Revenue Code and Regulations, Revenue Rulings, court decisions, and other evidence.

Sales and Similar Taxes

The Cooperative has customers in municipalities in which those governmental units impose a sales tax on certain sales. The Cooperative collects those sales taxes from its customers and remits the entire amount to the various governmental units. The Cooperative's accounting policy is to exclude the sales tax collected and remitted from revenue and cost of sales.

Advertising Costs

The Cooperative expenses all advertising costs as they are incurred.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued a new accounting standard (ASC Topic 606) that replaces substantially all existing accounting guidance, including industry specific guidance, related to the recognition of revenue from contracts with customers. The new accounting standard is intended to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices, and provide more robust disclosures. Under the new standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The FASB has issued several subsequent amendments and clarifications to the original standard.

The Cooperative adopted the requirements of the new standard (as amended) as of January 1, 2019, utilizing the modified retrospective method of transition. The Cooperative applied the new guidance using the practical expedient provided in Topic 606 that allows the guidance to be applied only to contracts that were not complete as of January 1,

·	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

2019. The Cooperative has determined that the application of the new guidance will not materially impact the timing or amount of revenue recognized and substantially all the Cooperative's revenue will continue to be recognized at a point in time. Accordingly, no adjustment to beginning equity was required and the adoption of the standard did not have a material impact on the Cooperative's financial condition, results of operations or cash flows as of and for the year ended December 31, 2019.

As required by the new standard, we have expanded our disclosures related to revenues with contacts from customers. See Note 9 for additional information.

NOTE 2 ELECTRIC PLANT AND DEPRECIATION

Listed below are the major classes of the electric plant as of December 31, 2020 and 2019:

	2020		2019	
	 Plant	Depreciation Rates	Plant	Depreciation Rates
Transmission plant	\$ 18,464,012	2.75-10%	\$ 18,463,666	2.75-10%
General plant	\$ 1,525,005	10-20%	\$ 1,509,042	10-20%
Electric plant in service	\$ 19,989,017		\$ 19,972,708	
Construction work in progress	\$ -	_	\$ 13,688	
Total	\$ 19,989,017	_	\$ 19,986,396	-

NOTE 3 INVESTMENTS IN ASSOCIATED COMPANIES

Investments in Associated Companies as of December 31, 2020 and 2019 are as follows:

	 2020	2019
Investment Balance with supplier		
Basin Electric Power Cooperative, Inc.		
Patronage capital credits	\$ 267,967,852	\$ 242,145,682
Investment Balances with other Associated Companies		
CoBank, Class C stock & patronage credits	\$ 402,715	\$ 372,154
Federated Insurance, Preferred E stock	\$ 133,894	\$ 125,406
Consolidated Telcom - patronage capital	\$ 116,278	\$ 109,878
Other	\$ 102,211	\$ 94,225
Total	\$ 755,098	\$ 701,663

NOTE 4 ECONOMIC DEVELOPMENT INVESTMENTS

During 2003, the Cooperative entered into an agreement with Basin Electric Power Cooperative, Inc., to participate in Basin's economic development loan program. Under the terms of this program, the Cooperative can borrow funds from Basin Electric which are then loaned by the Cooperative to its member distribution cooperatives for approved economic development projects. Interest on these loans is charged at 1% with interest payments due June 1st and December 1st

	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

of each year. No principal payments are due until the loans mature on December 31, 2027. The two-member cooperatives that have participated in this program are as follows:

	 2020	2019
Sheridan Electric	\$ 250,000	\$ 250,000
Slope Electric	\$ 150,000	\$ 150,000
	\$ 400,000	\$ 400,000

NOTE 5 TEMPORARY CASH INVESTMENTS

Temporary cash investments stated at cost as of December 31, 2020 and 2019 are as follows:

	2020	2019
4/20/20 at 2.45%	\$ -	\$ 32,364
5/11/20 at 2.45%	\$ -	\$ 102,653
4/19/21 at 6.40%	\$ 32,364	\$ -
5/10/21 at 6.40%	\$ 102,653	\$ -
Total Temporary Cash Investment	\$ 135,017	\$ 135,017

NOTE 6 PATRONAGE CAPITAL

Components of patronage capital at December 31, 2020 and 2019 are as follows:

	 2020	2019
Assignable	\$ 27,909,326	\$ 22,482,762
Assigned to Date	\$ 265,944,248	\$ 243,461,486
Total	\$ 293,853,574	\$ 265,944,248
Retired this quarter	\$ (21,564,827)	\$ (19,620,083)
Balance	\$ 272,288,747	\$ 246,324,165

The mortgage provisions restrict the retirement of patronage capital unless, after retirement, the capital of the Cooperative equals at least 30 percent of the total assets of the Cooperative; provided, however, that retirements can be made if such distributions do not exceed 25 percent of the preceding years' margins. No distributions can be made if there is unpaid, when due, installments of principal or interest on the notes, or, if after giving effect to any distributions, the total current and accrued assets would be less than the total current and accrued liabilities. During 2020 and 2019, the Cooperative's capital exceeded 30 percent of total assets.

A separate allocation is maintained for the patronage capital of Basin Electric Power Cooperative as the retirement cycle of the Cooperative and Basin differ. There were \$1,368,271 and \$350,455 of Basin capital credits retired during 2020 and 2019, respectively. The capital credit allocations from Basin totaled \$27,416,914 and \$21,859,340 in 2020 and 2019, respectively.

The Cooperative retired \$350,000 and \$700,000 of capital credits on a normal rotation during 2020 and 2019,

NOTES TO FINANCIAL STATEMENTS (Continued)

respectively.

NOTE 7 LONG-TERM DEBT

Long-term debt as of December 31, 2020 consists of the following:

				20	20
Financial Institution	Number of Notes	Interest Rates	Maturity Dates	Current Portion	Long-term Portion
CoBank	7	4.08% to 5.19%	April 2035-June 2043	\$ 201,289	\$ 6,024,309
Basin	1	1.00%	Dec-27	\$-	\$ 400,000
			Total	\$ 201,289	\$ 6,424,309

Long-term debt as of December 31, 2019 consists of the following:

				20	19	
Financial Institution	Number of Notes	Interest Rates	Maturity Dates	Current Portion	Long-term	Portion
CoBank	7	4.29% to 5.19%	April 2035-June 2043	\$ 192,264	\$6,	225,598
Basin	1	1.00%	Dec-27	\$-	\$	400,000
			Total	\$ 192,264	\$6,	625,598

Substantially all assets are pledged as security on the mortgage notes with CoBank.

All the long-term debt of the Cooperative is paid through transmission charges from the member cooperatives. For the years ended December 31, 2020 and 2019, the members paid down \$192,264 and \$184,124 of long-term debt, respectively.

It is estimated that the minimum principal requirements for the next five years and thereafter will be as follows:

2021	\$ 201,289.00
2022	210,492.00
2023	220,133.00
2024	230,019.00
2025	240,801.00
Thereafter	 5,522,864.00
Total	\$ 6,625,598.00

NOTE 8 LINE OF CREDIT

The Cooperative had a line of credit agreement with CoBank available for \$40,000,000 at a seasonal variable borrowing rate of 3.57% during the year ended December 31, 2019. Interest payments were due monthly and matured on July 31, 2019. At December 31, 2019, there were no outstanding borrowings on this line of credit. The Cooperative chose not to renew this line of credit during the year ended December 31, 2020.

NOTE 9 REVENUES FROM CONTRACTS WITH CUSTOMERS

The revenues of the Cooperative are primarily derived from providing retail electric service to its members. Revenues

	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

from contracts with customers represent 96 percent of all Cooperative revenues. Below is a disaggregated view of the Cooperative's revenues from contracts with customers as well as other revenues, including their location on the Statement of Operations:

	Electric Revenue				
Revenue Streams	2020			2019	
Member Cooperative Electric Sales	\$	605,518,841	\$	622,169,396	
Member Cooperative UMPC Charge	\$	3,538,950	\$	3,375,129	
Miscellaneous Service Revenues	\$	5,868	\$	8,073	
Total Revenue from Contracts with Customers	\$	609,063,659	\$	625,552,598	
Timing of Revenue Recognition	_				
Serviced Transferred Over Time	\$	609,063,659	\$	625,552,598	

Accounts Receivable

The Cooperative had accounts receivable from contracts with customers of \$56,313,365, \$59,279,017, and \$51,940,922 as of December 31, 2020, 2019, and 2018, respectively, net of uncollectible amounts.

NOTE 10 EMPLOYEE BENEFIT PLANS

401(k) Plan

Employees of the Cooperative are eligible for a 401(k) savings plan. This plan is offered through the National Rural Electric Cooperative Association (NRECA). The Cooperative's matching contribution percentage is 3% of each employee's base wage in this plan. The Cooperative contributions were \$20,105 and \$18,365 during the years ended December 31, 2020 and 2019, respectively.

Pension Plan

The Retirement Security Plan (RS Plan), sponsored by the NRECA is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333.

A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

The Cooperative's contributions to the RS Plan in 2020 and 2019 represented less than five percent of the total contributions made to the plan by all participating employers. The Association made contributions to the plan of \$120,709 and \$115,073 for the years ended December 31, 2020 and 2019, respectively.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or

Name of Respondent Upper Missouri G & T Electric Cooperative, Inc. dba Upper Missouri Poe	This Report is: (1) An Original (2) <u>X</u> A Resubmission	Date of Report (Mo, Da, Yr) 12/31/2020	Year/Period of Report 2020/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

allocated separately by individual employer. In total, the Retirement Security Plan was over 80 percent funded at January 1, 2020 and 2019, respectively, based on the PPA funding target and PPA actuarial value of assets on those dates.

Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

NOTE 11 RELATED PARTY TRANSACTIONS

The Cooperative is a member of and purchases a portion of its wholesale power from Basin Electric Power Cooperative. The following is a summary of the transactions with these entities for the years ended December 31, 2020 and 2019:

	 2020	2019
Purchase of wholesale power	\$ 598,253,612	\$ 614,952,163
Accounts payable to Basin Electric at end of period	\$ 55,095,379	\$ 57,876,850
Capital credits allocated during the current year	\$ 27,416,914	\$ 21,859,340
Accumulated investment in patronage capital credits	\$ 267,967,852	\$ 242,145,682

NOTE 12 COMMITMENTS

The Cooperative has a wholesale power contract with Basin Electric Power Cooperative of Bismarck, North Dakota, whereby the Cooperative purchases firm power and associated energy until December 31, 2075. The rates paid are subject to review annually. In addition, the Cooperative has an allocation of United States Department of Energy Western Area Power Administration (WAPA) power under contract at standard WAPA wholesale rates. This contract extends through December 31, 2050.

NOTE 13 BUSINESS AND CREDIT RISK

The Cooperative provides electrical transmission service on account to its member cooperatives which are located in eastern Montana and western North Dakota.

Concentrations of credit risk exist with respect to revenue from power sales from two member cooperatives comprising approximately 82.0% as of December 31, 2020 and 80.1% of total sales as of December 31, 2019.

The Cooperative maintains its cash balances in a locally owned bank. Such balances are insured by the Federal Deposit Insurance Corporation up to the maximum limit. The cash balances exceeded insurance coverage at various times during the years, however is fully backed by pledged securities of the bank through a repurchase agreement.

NOTE 14 ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

It is the opinion of management that the Cooperative has no significant uncertain tax positions that would be subject to change upon examination. The federal income tax returns of the Cooperative are subject to examination by the IRS, generally for three years after they were filed. All filings are current.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 15 LITIGATION

The Cooperative has been named as a defendant in a lawsuit by one of its members against the Cooperative's main power supplier. The member claims the main power supplier power rates have been increased due to the supplier's unreasonable and imprudent operation of one of its subsidiaries. These increased rates were then passed on by the Cooperative to its members. The member has also filed a complaint with federal regulators concerning the Cooperative's increased rates. Amount of any potential loss cannot be reasonably estimated at this time.

NOTE 16 FUTURE PRONOUNCEMENTS

ASU 2016-02, Leases (Topic 842)

During 2016, the FASB issued guidance to change the accounting for leases. The main provision of the ASU 2016-02 is that lessees will be required to recognize lease assets and lease liabilities for most long-term leases, including those classified as operating leases under GAAP. The ASU is effective for the Cooperative for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022.

Management has not yet determined what effect this pronouncement will have on the Cooperative's financial statements.

With the exception of the new standard discussed above, management has not identified any other new accounting pronouncements that have potential significance to the Cooperative's Financial Statements.

NOTE 17 SUBSEQUENT EVENTS

No significant events occurred subsequent to the Cooperative's year end. Subsequent events have been evaluated through February 17, 2021, which is the date these financial statements were available to be issued.

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)							
1. Explain in a footnote any important adjustments during year.							

2. Explain in a footnote any difference between the amount for book cost of plant retired, Line 11, column (c), and that reported for electric plant in service, pages 204-207, column 9d), excluding retirements of non-depreciable property.

3. The provisions of Account 108 in the Uniform System of accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

LONG-TERM DEBT (Account 221, 222, 223 and 224)							

1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222,

Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other long-Term Debt.

2. In column (a), for new issues, give Commission authorization numbers and dates.

For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
 For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.

For receivers, certificates, show in column (a) the name of the court -and date of court order under which such certificates were issued.

6. In column (b) show the principal amount of bonds or other long-term debt originally issued.

In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
 For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount.

Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.

9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Account 221, 222, 223 and 224) (Continued)								
10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.								

11. Explain any debits and credits other than debited to Account 428, Amortization and Expense, or credited to Account 429, Premium on Debt - Credit.

12. In a footnote, give explanatory (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principle repaid during year. Give Commission authorization numbers and dates.

13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote including name of pledgee and purpose of the pledge.

14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR							

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual, or estimated amounts of such taxes are know, show the amounts in a footnote and designate whether estimated or actual amounts.

2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes.)

Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.

3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than

accrued and prepaid tax accounts.

4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

	SALES FOR RESALE (Account 44	7)	

1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327).

2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows: RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.

SF - for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.

LU - for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.

OS - for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all									
non-firm service regardless the service in a footnote. AD - for Out-of-period adjust	s of the Length of the construction of the Length of the construction of the construct	ntract and service from designat	ted units of Less than one	e year. Describe the nat	ure of				
 Years. Provide an explanation in a footnote for each adjustment. 4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal - RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) after this Listing. Enter "Total" n column (a) as the Last Line of the schedule. Report subtotals and total for columns (9) through (k) 5. In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided. 6. For requirements RQ sales and any type of-service involving demand charges imposed on a monthly (or Longer) basis, enter the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) demand that a worthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain. 7. Report in column (g) the megawatt hours shown on bills rendered to the purchaser. 8. Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including put-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal - RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, ine 23. The "Subtotal - Non-RQ" amount in column (g) must be reported as Non-Reuriements Sales For Resale on Page 401, ine 24. 10. Footnote entries as required and provide

PURCHASED POWER (Account 555) (Including power exchanges)							

1. Report all power purchases made during the year. Also report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.

2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.

3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service expect that "intermediate-term" means longer than one year but less than five years.

SF - for short-term service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.

LU - for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service expect that "intermediate-term" means longer than one year but less than five years.

EX - For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlements for imbalanced exchanges.

OS - for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote for each adjustment.

PU	RCHASED POWER(Account 555) (Co (Including power exchanges)	ontinued)			
	, ,, , , , ,				

AD - for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.

5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.

6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.

7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.

8. The data in column (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on Page 401, line 10. The total amount in column (h) must be reported as Exchange Received on Page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on Page 401, line 13.

9. Footnote entries as required and provide explanations following all required data.

	DISTRIBUTION OF SALARIES AND	WAGES	

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

	COMMON UTILITY PLANT AND EXP	PENSES	

1. Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by accounts as provided by Plant Instruction 13, Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of allocation used, giving the allocation factors.

2. Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the Common utility plant to which such accumulated provisions relate, including explanation of basis of allocation and factors used.

3. Give for the year the expenses of operation, maintenance, rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.

4. Give date of approval by the Commission for use of the common utility plant classification and reference to order of the Commission or other authorization.

	TRANSMISSION LINE STATISTI	CS	

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.

2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.

3. Report data by individual lines for all voltages if so required by a State commission.

4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.

5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.

6. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

	TRANSMISSION LINE STATISTICS (C	ontinued)	•

7. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g)

8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.

9. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.

10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

	SUBSTATIONS (Continued)		

5. Show in columns (I), (j), and (k) special equipment such as rotary converters, rectifiers, condensers, etc. and auxiliary equipment for increasing capacity.

6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.
